NKS PRESET LIBRARY : UVI KAWAI VINTAGE LEGACY For Komplete Kontrol / Maschine

21 February 2024

Intro

Welcome to the Kawai Vintage Legacy NKS Library for the Native Instruments Komplete Kontrol / Maschine software and hardware.

This library covers all synths and drum machine patches in the collection allowing browsing and full control of all presets. Banks have been created to allow selection of each model in the collection and custom control maps have been created for each synth that offer deep/full control from both hardware and software. Sound previews and artwork files are also included. Works for both Falcon and Workstation plugins.

Compatibility / Requirements

- Supports Komplete Kontrol 2.8+ / Maschine 2.16+
- Supports All Maschine Hardware
- Supports All Komplete Kontrol Keyboards
- Supports VST2 / VST3
- Supports PC / Mac
- Supports Falcon or Workstation
- UVI Kawai Vintage Legacy Required

This is NKS compatibility files only. This will not work without the actual VST/Library being installed

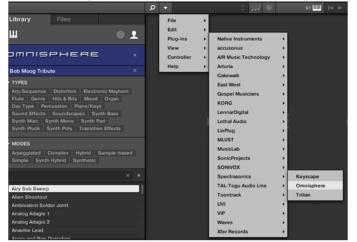

Download

A free version is available that contains a handful of presets for you to test with.

The full version is available for purchase with an immediate download.

Installation

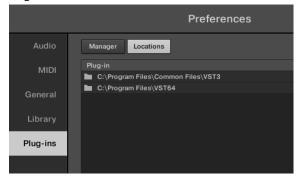

First ensure you have the VST plug-in installed and available to the software. Confirm if you need the VST2 or VST3 version.

In Komplete Kontrol It should already appear in your File > Plug-ins menu.

In Maschine open the plug-in browser and check the VST is listed:

| ··· | | | | | | | |
|----------|------|--------------------|-----|------------------|-----|-------------|-----|
| | Grou | IDAT | | Cakewalk | , | | |
| | MAST | rer group s | UNI | East West | | | _ |
| ۲ | | | | Eventide | - | | |
| G | + | | _ | Gospel Musicians | - | | |
| | | | | iZotope, Inc. | | | |
| | | | | KORG | • | LegacyCell | |
| | | | | LennarDigital | - | M1 | |
| <u> </u> | | | | Lethal Audio | - | MDE-X | |
| | | | 1 | LinPlug | - | MonoPoly | |
| | | | _ | MeldaProduction | • | MS-20 | 1.3 |
| | 1 | Sound 1 | | MLVST | | MS-20FX | |
| fr- | | Sound 2 | | | | | |
| Ľ | | Sound 3 | | MusicLab | ' ' | Polysix | |
| | 4 | Sound 4 | | Newfangled Audio | • | WAVESTATION | |
| | - | | | Nomad Factory | | | |

If the plug-in does not appear in the list of plugins, check that you have the correct paths to your VST folders in Preferences > Plugins > Locations. VST3 should be a default location but if you use VST2, make sure the correct path/s are listed theen rescan.

Once the plug-in is confirmed installed and working with the software, copy the preset and artwork (if included) to the following locations:

Database Files: Contains the browser images and database details for the NKS browser. Copy the "image" and "dist_database" folders included in the zip file to the following locations (existing image/dist_database folders may already exist so you want to just merge these files):

Windows: C:\Users\Public\Public Documents\NI Resources

MAC: /Users/Shared/NI Resources

All User library database and image files will be held in these folders with a unique folder for each vendor/plug-in. Do not change the names or ordering of these folders, simply copy and merge with the existing folders in the above location

MACOS : IMPORTANT!!!

Be sure to <u>copy</u> the sub folders into the above locations. You want to add the folders with the existing folders, not replace existing folder. <u>Mac users</u> should be cautious NOT to "Replace" the entire image or database folder with the included ones. You want to MERGE these files. Choose to replace existing files only if they exist to update them, DO NOT replace the main folders or you will lose all your library artwork for all products!!! *Preset Files:* Contains the preset files that need to be added to your user library. Copy this folder to your user library location. By default the user library is located at:

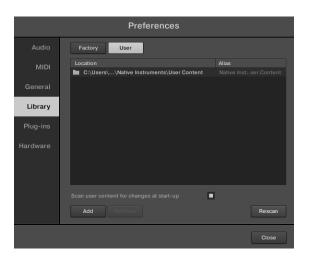

WIN: C:\Users\[USER]\Documents\Native Instruments\User Content

MAC: Users/[USER]/Documents/Native Instruments/User Content

You can confirm this location within the Komplete\Maschine software Preferences > Library > User Library

| → Co | mputer > Documents > Native Instrume | nts > User Content > |
|------|--------------------------------------|----------------------|

| - | materiale Finite Finite alla | 10 14 17 7.00 414 |

NOTE: If you already have a previous version of this NKS library you should delete it and replace with the latest version.

After the files have been copied, launch the Komplete Kontrol in <u>STANDALONE</u> mode to do a library update. If the software is not set to auto-scan on start-up, open Preferences > Library then select Rescan

| | E KONTROL | |

| Sound Effects | Soundscapes | Synth Lead |
| Synth Misc S | ynth Pad Vocal | |

You will find your new instrument in the **USER LIBRARY** which you can switch to using the user library button.

It is possible to integrate custom libraries into the factory library with all your official NKS instruments, however this requires a small "hack" which is detailed on <u>This Page</u>. For Mac users, this can be a more complicated process than Windows users and please note there is NO SUPPORT available from me to assist beyond the posted article.

If everything has worked correctly you should now see the plug-in listed in the browser with an assigned category, artwork for the plug-in and the installed presets will be listed in the browser.

Problems?

If you have issues with installation or usage, you can Contact Me or visit the Forum Thread

Installation Video Mac: https://www.youtube.com/watch?v=amzq_T5kc90

The Preset Browser

Presets are accessed by selecting the User library icon at the top of the browser

You can browse using any tags or reconfigure/rename tags using the tag editor in Komplete/Maschine.

Selecting a preset from the list will open the plug-in and automatically load the preset. You can then use the mapped controls to start tweaking the sounds. Banks are available to select the different models in the collection.

Controller Mappings

For synths, all available controls have been mapped for full control. The drum plugin contains most of the comon controls needed for each of the 8 drum channels and for the Multi layer library, all mixer, filter and envelope controls for each layer have been provided. Below is a control reference for the 4 synth libraries

Controller Reference

| | [1]======= | |

FAQ?

Keep up to date with the latest NKS Library releases, updates and improvements Subscribe to our Monthly newsletter Follow our Facebook Page for all instant updates when they are released

Can these presets be added to the Factory Library?

Yes they can. There are a couple of files that need to be created which are specific to your install locations. There are instructions on how to do this <u>Here</u>

Which Native Instruments Keyboard/Maschine hardware does this work with?

The NKS libraries will work with ALL Komplete Keyboard and Maschine Hardware

I'm not hearing any sound previews?

Check your preview volume is up in the Factory library and check you have a .preview folder with sound files in it. Some presets may have missing files so please report any issues with presets stating the preset name and the instrument/library.

I've noticed some issues

If you find any issues with incorrectly saved presets, sound preview issues, incorrect tagging etc please let us know the details and we will try and fix this up as quickly as possible.

I'm having some installation\usability issues!!!!!!!!

If you are having issues with installing and using the preset library, check out the <u>Forum Thread</u> to ask other users who may have some solutions. Also, check above for installation videos. Feel free to contact us if you still have issues.

Images are not displaying for the libraries?

This is normally down to the installation of the database/image folders not being correct. In some cases the plugin name could be different. If you cannot resolve your issue feel free to contact us (links below).

Can I get other VSTs or preset library's created as NKS?

I can only create presets for instruments I own or have a copy of. I am always on the lookout for new VST instruments at good prices so may do more down the track. If you are able to offer me a legal copy of a VST or can transfer me the library I can have a look if it is possible to make NKS compatible. If you are a plugin developere it may also be possible to add NKS compatibility for official factory inclusion. Feel free to contact me.

Disclaimer / Legal

All product and company names are trademarks[™] or registered[®] trademarks of their respective holders. We do not imply any affiliation or association with any of the companies and reference is in "fair use" terms. "Komplete Kontrol" and "Maschine" are trademarks or registered trademarks of Native Instruments[®]. VST is a registered trademark of Steinberg. Some trademark references may appear in this document belonging to others with no association with Freelance Soundlabs, including references which may not display the [®] symbol. All references to other trademarks belonging to third parties that appear in this document shall be understood to refer to those registered trademark owned by others.

NKS libraries are created with no affiliation to Native Instruments. I am not paid, or even supported by Native Instruments. Downloading and usage of this library is at the users own risk. Payments are non refundable for change of mind, wrong download or not working. Be sure to download the demo version of a product before purchase to test it works or ask questions first if unsure. In the event it is a genuine problem or mistake, we may offer partial/full refund on a case-by-case basis. While we will try and offer as mucch support to get you going, there is no guarentee we can offer support required in all cases. There is no guarentee all libraries will work with all future versions of plugins or OS updates and if a major update of a library is needed there may be a small upgrade cost associated for the updated version if you require it.

Users are not authorised to share or distribute the files with anyone else without the consent of Freelance SoundLabs. We do regular checks and embedded fingerprints in downloads may mean if a library is discovered being distributed without concent, the associated account will be terminated. A lot of work and cost goes into managing this project and without user support it will not be possible to continue. Please do the right thing and support the work to help keep it affordable and ongoing for everyone.
